

## NCHM/NWFWC/FORECAST-14/2018-19/424

**Date of Issue: 4<sup>th</sup> May, 2019**

**Time of Issue: 4:00 PM**

## Update on Advisory/Warning on Cyclone FANI

The Cyclonic Storm FANI has weakened into depression now lying over Bangladesh. The system is likely to move north-northeastward weakening into a low-pressure and then dissipate during the next 12 hours.

Weather is likely to improve from Sunday with partly to mostly cloudy weather over the country. However, pre-monsoon light rain is likely at isolated places of the country during the next 72 hours.

Updates will be issued if there are any significant changes in the forecast.
