NCHM/NWFWC/FORECAST-14/2019-20/264

Issue Date: 1 January 2020

Issue Time: 3:30 PM

Advisory on Rain/Snowfall

A western disturbance lies over Bhutan. Under the influence of the system, mostly cloudy weather with light rain/snowfall is likely over high passes and high altitude areas of Northern, Western and Central Bhutan from 3rd January (Friday) to 4th January (Saturday) 2020. Rest of the country is expected to be mostly cloudy with light rain during the same period.

Mostly cloudy weather with light rain towards evening/night is expected across the country tomorrow on 2nd January (Thursday).

Updates will be issued if there are any significant changes in the forecast.
