NCHM/NFWFC/Forecast-14/2020-21/120

7th June, 2021

Monsoon onset

Monsoon has onset in Bhutan on the 7th June 2021. With the onset, there is forecast of moderate rainfall over the south during the next 48 hours and the rest of the country is expected to receive light rain towards evening/night hours.

Thunderstorms are also likely at isolated places over the southern parts of the country during this period.
