About National Center for Hydrology and Meteorology (NCHM)

The National Center for Hydrology and Meteorology (NCHM) is an autonomous scientific and technical organization of the Royal Government of Bhutan responsible for understanding the behaviors of the atmosphere, its interaction with cryosphere and water bodies, the weather and climate, and the distribution of the country's water resources.

Additional Information :

The Center is the designated national focal point of international scientific organizations like the World Meteorological Organization (WMO) and the International Panel for Climate Change (IPCC).
